PROFESSIONAL PROFILE

Detail-oriented Computer Engineering graduate with hands-on experience in hardware troubleshooting, system maintenance, and technical support. Skilled in diagnosing and resolving hardware, software, and network issues efficiently. Adaptable and reliable, with a strong commitment to continuous learning and delivering effective IT solutions.

EDUCATION

SOUTHERN LUZON STATE UNIVERSITY - MAIN CAMPUS — **Graduated** 2021-2025
Bachelor of Science in Computer Engineering
Thesis Title: Self-Inflating Life Vest Integrated with Pulse Rate Technology and Notification

MANUEL S. ENVERGA UNIVERSITY FOUNDATION LUCENA — **Graduated** 2019-2021
Science, Technology, Engineering, and Mathematics
Award: High Honor

WORK EXPERIENCE / PROJECTS

FIELD SERVICE ENGINEER — **Nov 24, 2025 - Present**
U-BIX Corporation - Makati City

- Install, configure, and commission UBIX office equipment such as copiers and multifunction machines
- Perform preventive maintenance and on-site repairs to ensure optimal equipment performance
- Diagnose and troubleshoot hardware, software, and network-related issues
- Provide technical support and user guidance to customers

SELF-INFLATING LIFE VEST INTEGRATED WITH PULSE RATE TECHNOLOGY AND NOTIFICATION — **2024- 2025**
Southern Luzon State University - Main Campus

- Modified an automatic life vest into a swimmer safety device with a BPM-based inflation mechanism that activates based on the swimmer's heart rate.
- Developed a real-time monitoring system using ESP32 and Blynk IoT to track BPM, life vest status, and send notifications through a mobile app.
- Designed the system to be fully submersible and reliable, allowing beginner swimmers to train independently while being safely monitored.

TECHNICIAN INTERN — **July - Aug 2024**
RedQuinix Pisobox Lucena Computer Center

- Built, troubleshot, and tested PCs, Pisowifi boxes, laptops, and network systems, including OS installation and reformatting.
- Installed and configured CCTV systems while managing hardware inventory to ensure complete and functional components.

SKILLS

- Hardware Troubleshooting (PCs, Laptops, Printers, MFPs)
- Software Installation, Configuration & OS Deployment
- Network Troubleshooting & Basic Setup
- Preventive Maintenance & Equipment Servicing
- Remote & On-site Support
- System Testing & Performance Validation
- Basic Coding (Java, C++, C#)
- Microsoft 365 (Word, Powerpoint, Excel, Outlook)

PROFESSIONAL / SOFT SKILLS

- Adaptable and fast learner
- Strong attention to detail
- Excellent time management
- Passionate about continuous learning and development
- Attention to detail and accuracy

CHARACTER REFERENCE

ENGR. JOHN ED A. MANUIS
DevOps / Cloud Engineer / Site Reliability Engineer
09487042974 | johnedmanauis@gmail.com

ENGR. JERWIN V. OBMERGA
Instructor - SLSU Computer Engineering Department
09054298428 | jobmerga@slsu.edu.ph

DR. RENATO R. MAALIW III
Professor 1 - SLSU Computer Engineering Department
